

REMARKS

Reconsideration of this application is respectfully requested in view of the foregoing amendment and the following remarks.

Interview Summary

As a preliminary matter, the Applicant expresses appreciation to the Examiner for extending the courtesy of a personal interview to Applicant's representative on June 20, 2006. During the interview, Applicant's representative described the invention and how it differs from the cited art. In addition, the Examiner and Applicant's representative discussed possible amendments to the claim language.

Summary of the Response

By the foregoing amendment, claims 1-10, 12, 13 and 15-21 have been amended. No new matter has been added. Thus, claims 1-21 are currently pending in the application and are subject to examination.

In the Office Action mailed March 14, 2006, claims 1-21 were rejected under 35 U.S.C. § 102(b) as being anticipated by Glennon *et al.* (U.S. Patent No. 5,805,173, hereinafter "Glennon"). It is noted that claims 1-10, 12, 13 and 15-21 have been amended further to discussions with the Examiner on June 20, 2006. To the extent the rejection remains applicable to the claims currently pending, the Applicant hereby traverses the rejection, as follows.

Claims 1, 12, 16, 17 and 21 Recite Patentable Subject Matter

Regarding amended claims 1, 12, 16, 17 and 21, the Applicant respectfully submits that nothing in the cited prior art discloses or suggests at least the

combination of features of “**a window adjustment circuit** which sets up an **additional window adjacent to a window** in which the image data are actually stored in a memory space of said storage circuit and **storing therein additional data other than the image data**, which adjusts the address generated by said address generation circuit,” as recited in amended claim 1 and in the similar language of amended claims 12, 16, 17 and 21. (Emphasis supplied).

For at least this reason, the Applicant submits that claims 1, 12, 16, 17 and 21 are allowable over the cited art.

Claims 2-11, 13-15 and 18-20 Recite Patentable Subject Matter

Regarding claims 2-11, 13-15 and 18-20, the Applicant respectfully submits that each of these claims depends from one of allowable claims 1, 12, 16 or 17, and is therefore allowable for at least the same reasons.

Conclusion

For all of the above reasons, it is respectfully submitted that the claims now pending patentability distinguish the present invention from the cited references. Accordingly, reconsideration and withdrawal of the outstanding rejections and an issuance of a Notice of Allowance are earnestly solicited.

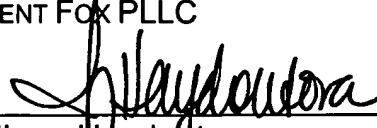

Should the Examiner determine that any further action is necessary to place this application into better form, the Examiner is encouraged to telephone the undersigned representative at the number listed below.

In the event this paper is not considered to be timely filed, the Applicant hereby petitions for an appropriate extension of time. The Commissioner is hereby
